

Moon Lake Electric Association, Inc.

**ELECTRIC SERVICE
SCHEDULE Y
YARD AND PROTECTIVE LIGHTING**

AVAILABILITY: To all Consumers served by the Association where Association-owned 120 volt service can be utilized as a source of supply for the lighting circuit. This rate not for resale.

APPLICATION: Unmetered Lighting Service. Rate includes energy and maintenance costs. Lights will be controlled by Association to operate from dusk to dawn each night.

MONTHLY BILL:

RATE: \$8.50 per unit per month

CONDITIONS FOR SERVICE:

1. Facilities involved are owned by the Association.
2. The Association will provide at its expense all necessary labor and materials for repair and maintenance, except in the case of vandalism. The Association will perform necessary repair or maintenance at its earliest convenience and during normal working hours.
3. The Consumer must notify the Association that repair or maintenance is necessary.
4. Permanent and Indeterminate Consumers will sign a one-year agreement accepting the conditions of this rate schedule and guaranteeing a minimum of twelve (12) times the monthly rate.
5. A Consumer requesting lighting service on a temporary basis (less than one (1) year) will sign an agreement guaranteeing the Association the applicable monthly minimum charges plus installation and removal costs of the Facilities to be paid in advance.
6. At Association expense, yard light(s) will be installed on existing overhead facilities where a transformer is not required, with no up front costs to the consumer. If a new pole is required, the Consumer will be required to pay a fee of \$150 prior to construction. If a new transformer is required, the Consumer will pay the full cost of the transformer prior to construction.
7. The Consumer may elect underground service by providing trench (24" deep), bedding and backfill. Underground construction shall be limited to not more than 100 ft. of underground service at Association expense from existing facilities. Beyond that limit, the Consumer will pay construction costs, excluding the first \$150 for each additional pole(s) and full costs of any new transformer.
8. Association will change lamps from mercury vapor to high pressure sodium at it's option. Mercury vapor lamps will not be installed after January, 1990.
9. Relocation of facilities upon Consumer's request will be at the Consumer's expense at the option of the Association.

TERMS OF PAYMENT: Payment is due within twenty (20) days after the bill is prepared.

TEMPORARY DISCONTINUANCE OF SERVICE: A Consumer requesting reconnection at the same location within a 12 month period shall be required to pay the monthly Customer Charge for the intervening months. Non use of service for 12 months shall make the premises subject to removal under the Idle Service Regulation.

SPECIAL PROVISIONS: Rates and Service hereunder subject to Electric Service Regulations of the Association as amended from time to time.
